

BRAD'S UPDATED BIO, June 2024

I'm a Manitoba lad from Portage La Prairie!

I give a special thank-you to my mom and dad for passing on a love for music. Our home was filled with musical evenings on the farm; my dad on the piano, my uncle on the sax and a few neighbours over with fiddles and accordions. As a kid I'd be sent to bed but I listened from there!

My father tuned pianos and I learned that trade and its intricacies. He bought my first guitar and my parents put up with a lot of "noise" as I learned to play. The bass is my first love but I focus on guitar for "Reflections".

In high school and beyond, I managed to play in a popular rock band, "Fudge Motors Inc." We traveled around Manitoba for some time and I provided the vehicle and trailer for all the equipment. You can still listen to Fudge Motors Inc on line and we did a fund raiser in Portage, New Years Eve 2023!

I've played in many bands over the years and most notably, twenty-five years in the "Jordan Echoes", a country gospel band. It's been a privilege to meet and learn from many talented souls. Over the last ten years I've tackled singing and harmonizing as well. I love musical challenges.

Now, Laveryne and I have our duo band; it doesn't get more fun than that.
